Local Osteopath Shortlisted for National Award

Bannerdale Osteopaths in Nether Edge has been shortlisted for Osteopathic Practice of the Year by Institute of Osteopathy.

Bannerdale Osteopaths have been shortlisted for the category of Osteopathic Practice of the Year at the Institute of Osteopathy's annual awards show. This is the 4th year that the practice have been shortlisted for an award at the prestigious ceremony and this is surely going to be their year!! - 4th time lucky!!

The awards ceremony is taking place on Saturday 2nd November 2019 at the Gala Dinner in Heathrow. Steven Ojari and his two other Osteopaths Alex Jones and Pooja Guria are closing the practice early attend the awards show and hopefully bring the trophy home.

Bannerdale Osteopaths is located in Nether Edge, Sheffield and is run by experienced local Osteopath Steven Ojari who provides a friendly relaxed environment for all patients. Steven has been running Bannerdale for 8 years now, initially from Abbeydale Road, but more recently from their custom renovated building in Nether Edge.

The Osteopathic Practice of the Year award will be given to the clinic the judging panel believes provides excellent customer care, encourages and uses patient feedback, and demonstrates a commitment to developing the standards of their service in line with the iO Patient Charter.

Bannerdale Osteopaths treat and manage a wide range of conditions including back and neck pain, occupational and repetitive strain injuries and issues relating to pregnant and nursing mothers. They effectively treat many patients who can't (or don't want to) wait for an NHS physio referral, appointments are usually available within 24 hours. They also offer treatment for babies and children suffering all matter of complaints by using gentle non-invasive re-balancing techniques.

"Our goal is to get you back to health as quickly as we can, using as few treatments as possible and we view a successful outcome by not seeing you again! That's not to say we will abandon you once you are starting to feel a bit better. You should leave with an understanding of why your condition has arisen and knowledge of what you can do to prevent re-occurrence. Exercises are in many instances very important too so we will attempt to find a few that work for you and your lifestyle to speed up your recovery and reduce the chances of you needing ongoing care." Steven Ojari, Principle, Bannerdale Osteopaths
